A Good Time.

Charleston is regaining some of its old time notoriety as a resort for the festively inclined on the sabbath day. Yesterday the Mexicans employed at the slag dump of the Charleston smelter, went on "a little time" and results were more damaging than the affair at Phoenix between Humphries and the iceman. They had a fight in which 7 healthy men took part. It was after the style of the late fad in prize ring circles of putting a bunch of champions in the ring and awarding the prize to the one who stood up the longest and conquered the balance. Four of them were brought up before Justice Alvord today and three more are on the way up. Out of the four who ran the gauntlet this a. m., three of them named D Gellego, P Oranto and M Beguinin were sent to the county jail for thirty days each in default of \$30 fine. F Yescas was the most unfortunate of the lot. He rests at Charleston with an uncertainty as to whether he will be sent to the county jail or not.

KISSED BY A BURGLAR.

The Story of a San Francisco Girl's Midnight Adventure.

"I heard the oldest of all burglar stories when I was out on the Pacific coast," said a New Yorker who has just returned from there to a New York Sun reporter. "It was told me as having happened to a household in a suburb of San Francisco. Private detectives were employed to hunt the desperado, but the fear of publicity hid the case from the authorities. In the front hall room on the second floor of a detached house slept the daughter of the house, the other members of the family being only her father and mother. The Chinese servant was in all probability at some friend's laundry or over in San Francisco smoking opium, as those servants are almost certain to be after nightfall. But he does not count, at any rate. The young lady was not asleep. She was very poor health, and part of her ailment was an inability to sleep except in cat-naps. She heard a noise on the porch beneath her window, and a minute later her window was thrown open and a man stepped lightly into the room. Without halting to see if his action had aroused any one he passed along the very narrow passage between her bed and her trunk—a way so narrow that it was the young lady's custom to sit on her bed and search her trunk and to lace her shoes by putting one foot at a time upon the trunk while she was seated on the bed.

"As the burglar passed along beside her bed he dropped one hand upon the woman's head, and then let it rest in position as he moved, and she, on her side over the bed, reached up and caught his hand.

"The man started into the hall. She did not venture out after the thief. While she lay there, dreadfully frightened and wondering what to do, back came the man. He stood in her room, closed and locked the door, and then sat down on the bed.

"Now," said he, in a gentle voice not at all modulated to avoid being heard, 'I know that you are awake, and I am going to sit here and talk with you. Upon my honor as a burglar of reputation and good instincts, I will not hurt you. In only one way will I transgress the rules of good breeding. I am going to kiss you, that is all.'

"The young woman found her voice and screamed.

"Oh," said the burglar, 'I am sorry you are frightened. I have had a mind to go away and come again when you are more accustomed to my presence. But, no; I can not do that. I only mean to take one kiss—'
